PROFILE SUMMARY

Motivated A-Level student with a strong interest in business, technology and problem-solving. Experienced in building practical tools using Python and AI, with a focus on automation and real-world applications. I enjoy working on projects that combine technical skills with business thinking, and I'm always looking for opportunities to learn, contribute and take initiative in new environments.

SELECTED PROJECT

AI-POWERED FINANCE & INVOICE OPERATIONS PLATFORM
Independent Development Project | 2026 - Present

- Developing a Streamlit-based finance application to simplify and automate invoice operations for businesses.
- Built client and invoice workflows using Python and PostgreSQL, including dashboard metrics, invoice history, payments and financial reports.
- Implemented Excel/CSV smart import with Pandas, column normalization, previewing and assisted field mapping.
- Using Git/GitHub for version control and iterative development while expanding the product towards validation, approvals, reminders and workflow automation.

EXPERIENCE

TECHNOSPHERE ORBIT | AI & Finance Intern
September - November 2026

- Working on AI-driven solutions and automation tools to support client projects and business operations.
- Contributing to product development, research and workflow improvement using Python, AI tools and automation.
- Collaborating with the team to explore and implement practical AI features for real-world use cases.

LVLS AGENCY | Graphic Design Intern
2025

- Created social media creatives, promotional materials and branding assets for client campaigns.
- Worked alongside agency professionals and gained experience with client requirements, feedback and delivery workflows.

THENEWSPAPER.PK | Content Writer Intern
2025 - 2026

- Researched and wrote articles across current affairs, business, lifestyle and trending topics.
- Produced structured content while working to editorial deadlines.

FREELANCE GRAPHIC DESIGNER & DIGITAL MARKETER
2025 - Present

- Delivered logos, social media content, branding and digital marketing work for clients.
- Managed projects independently from client brief through creative delivery.

LOCAL SPORTS FUNDRAISER EVENT | Head of Media
2025

- Led media, promotional and digital coverage for a community fundraiser event.
- Coordinated creative work with organizers and sponsors to improve event visibility.
